

CONFIDENTIAL

11 AUG 1988

MEMORANDUM FOR: Director of Medical Services

25X1 FROM:

[REDACTED]
Director of Security

25X1 SUBJECT: Lack of Two-Way Radio Capability for Fairfax
County Emergency Services in the New
Headquarters Building [REDACTED]

REFERENCE: Memo for D/OMS fm C/SD/OMS, dtd 7 July 1988
Same Subject

25X1 1. An examination of Office of Security documents fails
to disclose the existence of any recorded discussions with
members of the Safety Division in which Safety Division's
requirements for communication needs in the New Headquarters
Building were identified. Attachment B of the referenced
memorandum, a memorandum for C/CED/EG/OIT from C/SD/OMS, dated
8 June 1988, which comments on [REDACTED]
[REDACTED] the New Headquarters Building radio system, appears to be
the first time (paragraph 7) that OMS identifies its
requirements concerning the Fairfax County Fire and Rescue
network. This Office finds no indication that OMS sought
formally, or informally, to have these requirements included in
the New Headquarters Building communications planning cycle
prior to this June 1988 time frame. [REDACTED]

25X1 2. In connection with the problem at hand, it is
suggested that the specifics of the OMS requirement for
communications within [REDACTED] the New
Headquarters Building be handled directly with the appropriate
element of OIT. [REDACTED]

25X1 [REDACTED]
